

## VIRGINIA POLO TEAM FEEDER APPLICATION

Job Description: Barn feeders are required to bring in all horses from the back pasture into the barn between 8 and 9 a.m. Feeders will give the horses grain as directed and will secure them in their standing stalls. Feeders will also be responsible for feeding any horse in outside paddocks as directed by the coach.

If feeders note an issue like lameness or have other minor observations regarding a horse's appearance or behavior, they should record these on the blackboard in the barn. Any severe injury or illness requires an **immediate** report to the coach.

Each feeder must feed two mornings and once at mid-day. Feeders are responsible for their shifts and must contact the head feeder ahead of time if they cannot make shifts.

Only 2<sup>nd</sup> year members are eligible to apply for this position. Feeders must reapply each year to retain the position. Applications are due at the end of the spring semester for positions that begin the following fall. They must be submitted to the coach for approval.

Name (Print) \_\_\_\_\_

I am interested in becoming a feeder next fall and understand the responsibilities of this position.
